*"Magnificent Publications has reliably produced high quality products at reasonable prices. I've worked with them on my website, a PhotoPlay, my newsletter, and various written pieces for the website. I can recommend them for all of those things."*

## About Us

Suzanne Harris

I founded  
Magnificent  
Publications,  
Inc. in 1995.  
Today, more  
than 50 project  
managers,  
writers,

graphic designers, editors,  
Web developers, photo  
researchers, and production  
supervisors collaborate with  
me. I make assignments based  
on successful experience and  
expertise in the client's field.  
References and samples are  
always available. A second  
qualified individual reviews  
every deliverable for logic  
and ease in comprehension.  
Of course, when appropriate,  
reviewers ask, "Am I persuaded?"  
Our goal: assure clients they will  
get the results they hope for.
